Newsletter of the J.E.B. Stuart Camp #1506, Sons of Confederate Veterans, Philadelphia, PA

Greetings everyone. This is my first attempt at putting together this newsletter. I hope that you will bear with me while I learn to do this, and even submit articles and information for publication. In addition, let me take the time to put in a plug for the fantastic camp website recently designed by Camp Adjutant Mike Duminiak. You may check it out at http://www.geocities.com/JEB_STUART_Camp_1506/. Also, the camp listserv: [JEB Stuart Camp 1506 Philadelphia@yahoogroups.com](mailto:JEB_Stuart_Camp_1506_Philadelphia@yahoogroups.com) is growing, and we would like everyone with an email address to subscribe. It will also be extremely easy to be able to transmit via e-mail, as well as more cost-effective. This is an excellent opportunity to pass along news of upcoming events, articles of interest to camp members and other items. Mike has a design proposal for a camp flag. I am attempting to include it in the body of this newsletter, but if I am unsuccessful, it will be as an attachment.

Friends:

I believe this is self explanatory and I urge you to sign this petition.

- > American Justice for Americans -- No International Criminal Court for Us
- > April 4, 2002
- > Dear friend of liberty,
- > The International Criminal Court (ICC) will soon become a reality. The United Nations will hold a celebration for their new world court on Thursday, April 11, 2002 in New York and Rome.
- > The International Criminal Court will claim judicial supremacy over the United States and its people. We are asking President Bush to make it clear to the International Criminal Court that the supreme law of our land is the Constitution of the United States -- not the ICC. Rescinding the American signature to the ICC treaty that former President Bill Clinton authorized would clearly express that conviction.

If you haven't signed the petition to President Bush, please do so now. We are in the process of preparing the petitions for delivery to the White House.

also, please tell a few friends about this petition.

If you are one of the 100,000-plus people who have already signed the petition, thank you!
